

## Rainbows as Symbols of Hope

I came across this idea on a local church Facebook page:

Let's display rainbows in the windows in our community.

A rainbow is of course the sign from God to humanity of hope and commitment in Genesis.

Imagine a rainbow over our community during this difficult time... how beautiful.

We would love for your child to make a rainbow using paint, pens, pencils or collage etc. Then display your rainbow in one of your windows. If you can take a photo and email it to us ([l.coleman@dbmac.org.uk](mailto:l.coleman@dbmac.org.uk)) we will try to display them on our school website. When taking photos please do not include your child's face and avoid anything that might identify your address (such as house numbers).

Please pass this idea on to your friends and families.

Let's gradually transform our homes as symbols of hope and commitment.

Please pray this week for the schools and the local families affected by the school closures: As you know our school will continue to be open for a limited number of children, including children of key workers, please pray that those still working in schools stay safe. Pray for staff, for the children, for the children now at home, for the parents now working from home. Pray for the hospital staff working incredible hours. Pray for all the key workers who are critical to the fight against this virus.
