## 14<sup>th</sup> June 2021

### Life-cycles

We have enjoyed learning about the lifecycle of a frog. After a trip to the School pond, we collected some tadpoles and have been observing them change. We are excited to announce we have froglets.

This week, Saira's mum, Shirin, kindly ordered our class a caterpillar kit, so we can observe the lifecycle of a butterfly. In just a few days we have seen them double in size.

### Maths

This week we are going to be revisiting adding and taking away. We will be using a number track to count on and back to find the answers. You can explore this at home in everyday situations. For example, We have two plates on the table, if we add three more how many will we have.

### Personal, Social and Emotional Development

This term is all about the topic of change. We will be discussing how we felt when we started in Reception and what sort of things we did to help us settle in. As the term goes on we will talk more about Year one and their feelings about this in preparation for a positive transition. Further information will follow about a visit to Year 1.

### Summer

As we are enjoying all of this beautiful sunshine, please remember to apply sun cream that provides protection for the whole School day, as well as a sunhat. Water bottles are refilled throughout the day.

## **PE**

When children get changed for PE they use a chair to organise their belongings, that said we had quite a muddle on Friday. Lots of names have been washed out of uniforms and PE kits, and children were unsure if they arrived in a shirt or polo-shirt. I am sorry if your child returned home in the wrong clothes. Please can we ask you to check your child's uniform and ensure that it's all named. We will be sending home all PE bags on Monday for you to check and rename ready for Friday. Children also need a pair of trainers. Thank you for your understanding.
